Career Objective

I am a Year 3 Diploma in Digital Design & Development student at Republic Polytechnic with hands-on experience in full-stack development, UI/UX design, and mobile application development. Through academic projects, leadership roles, and work experience, I have developed strong problem-solving skills and the ability to deliver user-focused, functional digital solutions. I am seeking an internship opportunity to contribute to real-world projects, strengthen my technical and design capabilities, and grow as a developer in a collaborative and fast-paced environment.

Key Skills

Technical Skills

- **Programming & Development:** Python, JavaScript, HTML, CSS, React, React Native, Node.js
- **Database Management:** MySQL, relational database design and basic optimization
- **Full Stack Development:** Developing responsive web applications with front-end and back-end integration
- **Mobile App Development:** Cross-platform Android applications with responsive and user-focused UI
- **Web Development:** Building responsive, accessible websites with strong UI/UX principles for multi-device compatibility

- **UI/UX Design:** Figma (wireframing, prototyping, design systems), user research, usability testing and digital asset creation
- **IT Project Management:** Experience with project planning, task coordination, and development workflows in academic projects
